

## Andrea I. Flossmann

**FRANCE** 

Prof. Andrea I. Flossmann (citizenship: French and German, married, 2 children) is full professor at the University Blaise Pascal (UBP) in Clermont-Ferrand (France), a joint research unit with the CNRS institute Laboratoire de Météorologie Physique (CNRS-LaMP). From 2004 to 2010 she was the director of the OPGC (Observatoire de Physique du Globe de Clermont-Ferrand) and has been involved in a number of EU projects (QUANTIFY, EUROTRAC, ACE.) and has coordinated FP6 EUSAAR and FP4 CIME and other national and international projects (BIOCLOUDS, BEAM,...). Her research activities focus on the study of the physico-chemical processes in clouds considering in particular the unknowns regarding the process of nucleation of liquid drops and ice crystals, their interaction and the consequences for precipitation formation. This research is based essentially on a modelling approach of clouds using three-dimensional meso-scale models with a bin resolved representation of warm and cold microphysics, as well as the particulate pollution in the hydrometeors and in clear air. She has published more than 120 research papers.

| 1987-1993      | Assistant Professor at the Institut für Meteorologie of the Johannes Gutenberg- |
|                | Universität in Mainz (Germany)  |
| Since 1/9/1993 | Full Professor at UBP in Clermont-Ferrand                                       |

## **Distinctions**

| 2015       | Elected "honorary member" (fellow) of IUGG                                      |
|------------|---|
| 04/07/2013 | Promoted «Officier» in the French Order of Academic Palms ("Ordre des           |
|            | Palmes Académiques")  |
| 1987       | Award of the Landesbank Rheinland-Pfalz for the best thesis of the year 1987 at |

Award of the Landesbank Rheinland-Pfalz for the best thesis of the year 1987 at 1987 the Johannes Gutenberg-Universität

## International scientific responsibilities (non exhaustive)

| Since 2013          | President of the French section of IAMAS/IUGG; member of IAMAS council           |
|---------------------|--|
| Since 2012          | President of the executive committee of the "International Commission on         |
|                     | clouds and precipitation" (ICCP/IAMAS/IUGG); before 8 years Vice-president       |
| 2002-2010           | Chief-editor of « Atmospheric Research » (Elsevier journal), IF=1.9              |
| <b>Publications</b> | over 50 publications in peer reviewed journals, over 70 other publications, over |
|                     | 70 oral presentations at conferences and seminars (including many invited talks  |
|                     | and conferences for a larger public)   |

## Administrative activities and other responsibilities (non exhaustive)

| 2004-2010 | Director of the OPGC (l'Observatoire de Physique du Globe de Clermont-      |
|-----------|---|
|           | Ferrand; CNRS-joint service unit UMS 833; about 200 people)                 |
| 2000-2007 | Vice-director of the Laboratoire de Météorologie Physique CNRS-LaMP (about  |
|           | 50 people)  |
| 2000-2004 | Head of group « Physico-chemical processes in clouds » at LaMP (about 10p.) |
